*\*Departments should make every attempt to select vendors who accept University purchase orders. Individuals, as a general rule, should not advance their own funds to purchase supplies and services on behalf of the University. Purchases should be requested through established purchasing policy and procedures and the University should deal directly with vendors to arrange for the receipt of goods and payment of obligations.*

*Individuals who advance their own funds for the purchasing of items must understand that such equipment belongs to the University. When reimbursement is ultimately approved, the equipment will be tagged and recorded in the University's asset inventory.*
