

safety wall scores an additional point. Robots must fit in a 12" x 12" footprint. Three judges, appointed by the McCormick Student Advisory Board, will officiate.

The competition will be held as a double elimination tournament. A seeding round will sort the teams into their initial positions. In the seeding round, robots will have 2 minutes in the arena with no competitor to score as many points as they can. The time of the last point scored will be used in the event of a tie score.
